Silence is Complicity: A Palestinian Call to Action

Empty calls for peace without a ceasefire and end to occupation, and the shallow words of empathy without direct action, are all under the banner of complicity.

Tell Congress to Restore Funding to UNRWA

After Hamas attacked Israel on October 7, 2023, Israel retaliated with massive bombings that destroyed homes, hospitals and schools, turning Gaza into rubble and creating a humanitarian crisis. Famine is spreading in parts of Gaza. Food, water, medicine, and essential services are needed to mitigate and avert famine.

UNRWA (United Nations Relief and Works Agency) is the backbone of all humanitarian response in Gaza, and is irreplaceable. When earlier this year Israel accused 12 UNRWA employees (out of 30,000 staff) of participating in the Oct 7 attack, the U.S. cut off all funding to the agency.

With famine looming, the UNRWA Funding Restoration Act of 2024 will be introduced when Congress returns from recess, and it needs co-sponsors. Please call your elected officials, ask them to become co-sponsors of this bill, and thank them if they have. Here's a sample script:

I am _____ from _____. I am calling to ask Congresswoman/Senator _____ to sign on as the co-sponsor of the UNRWA Funding Restoration Act. Gazans face starvation and famine from Israel's massive bombardment of their towns and cities. They need food, water and essentials to survive. No agency other than UNRWA can provide that massive level of aid. We urgently need Congresswoman/Senator _____ to sponsor or support this bill.
